

IMPF Network Project

Development Grants - Open Call to Members

This year **IMPF has again 15 grants worth 6000 Euro each available to its member companies in Creative Europe Countries***

This money is to help Members of IMPF who would like to engage in cross-border activities of either a creative or business development nature.

For each application, a maximum grant of €6000 will be awarded to any project that has a budget of minimum €7500. In other words Members must invest €1500 to receive the €6000.

The range of activities you can apply for is broad, however they must **have a cross-border dimension, and can include attending or organising conferences, cross-border song-writing sessions and residencies, and developing capacity-building, training or networking workshops for music publishers and/or emerging artists and composers. Applications are open to songwriters, authors, artists as well as music publishing professionals.**

Evaluation criteria will include how you address diversity and gender balance in your proposed activity.

Deadline – please get your applications in using the attached template as a guideline by March 15.

*While only EU-based IMPF Members can apply for the grants, the location in which the activities can take place is not restricted; for example a trade conference in China, or a song-writing camp in Canada etc. are eligible.
